

## BDE Bullseye Adjustable Exhaust Pulley for 1990 to 1993 VG30DE(TT) – Identification of Mitsubishi and Hitachi CAS

The Hitachi CAS used in model years 1994 to 1996 has limited clearance to the BDE Bullseye Adjustable Exhaust Pulleys. The Hitachi CAS can be modified for clearance by machining the corner of its casting as shown in figure 3 below.

Send your Hitachi CAS to BDE and we will modify it for clearance to the BDE Bullseye Adjustable Exhaust Pulleys for free (customer is responsible for shipping costs).
